NEWLY REDESIGNED WEBSITE PROMOTES ACCESS TO JUSTICE

SAN BERNARDINO, CA—The Superior Court of San Bernardino County is pleased to announce the launch of its newly redesigned website built with an emphasis on responsive design, improved search functionality, an updated look, and easy-to-use navigation tools. The court’s information technology and operations department, along with several other key contributors worked with a team from Orange-based 360 Civic on the newly redesigned website.

New features include an interactive map of all court facilities, a dynamic list of most popular searches available through the “How Do I...” menu, one-click access to court services, and mobile adaptability. Court users are encouraged to explore the new site and [submit feedback](#) as the court continues to make site improvements to meet the needs of the public and our justice partners.

Aligned with the court’s [2018-2023 Strategic Plan](#), leveraging cost-effective technology solutions to redesign our court website allows us to expand access to justice by making information easier to find, searchable, and interactive.

“The court’s newly redesigned website will enhance the users experience, provide every user, on every device the opportunity to easily access a full menu of services; it’s adaptive and can translate information into multiple languages. We have confidence that this improvement will make it simple for each user to access the information he or she needs,” said Presiding Judge John P. Vander Feer.

The Superior Court of San Bernardino County continues its efforts to increase access to justice and provide the public, attorneys and litigants the ability to use our court system more efficiently and effectively.
